**Button 1**  
No function

**Button 2**  
No function

**Joystick**  
Control the shark

**Button 3**  
No function

**Button 4**  
No function

# HOW TO PLAY

## **PLAYER SELECTION**

This game is designed for just one player.

## **OPTION SELECTION**

You have the option to select the difficulty of the game. The default option is difficulty one.

## **GAME PLAY**

The gameplay is about surviving as long as possible in the ocean. Your healthpoints decrease by time, so you have to eat fishes or humans to survive. In addition to that you have to take care of the objects around you. If you collide with them you are instantly dead.

## **WHATEVER ELSE IS IMPORTANT**

Remember you only have one life. So be very careful swimming through the ocean.

# SCORING

Points are awarded for achieving the following:

The score increases by time. You have to eat fishes and humans to stay alive.

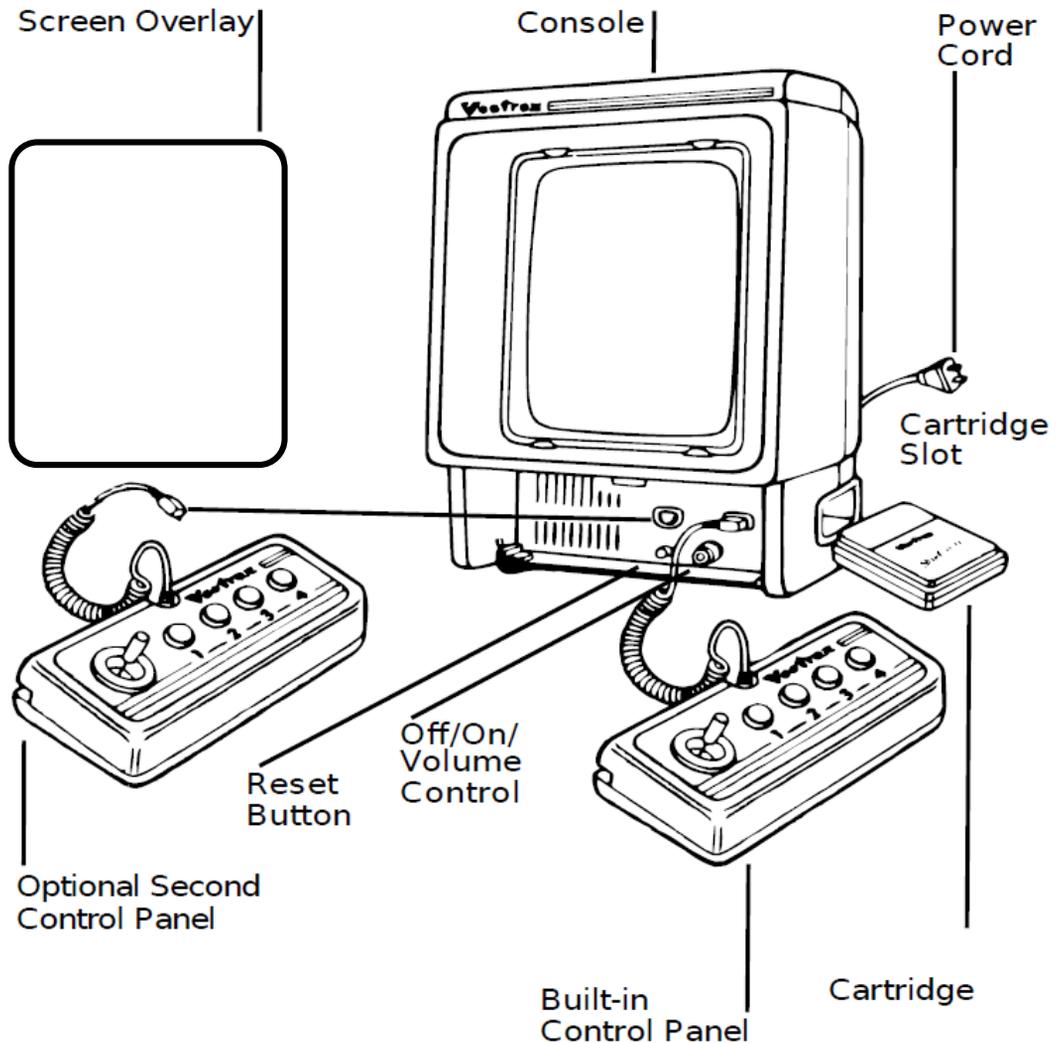

# HIGH SCORE MEMORY

As long as your machine is on, with the game cartridge in place, the highest score is retained. To see this score, press the Reset button. When the machine is turned off and the cartridge removed, the score is lost.

# RESTARTING THE GAME

To restart a completed game with the same number of players and the same game option, press any of the four buttons once the game is over. If you wish to restart the game before it is completed, or change the number of players or the game option, press the Reset button.

# SETTING UP

# CREDITS

This game was developed by Maximilian Kellner and programmed in C and MC6809 assembly language. It is the outcome of a student project which was part of the elective course "Advanced hardware-oriented C and Assembly Language Programming" at Pforzheim University, Germany, in spring term 2017, supervised and tutored by Prof. Dr. rer. nat. Peer Johannsen.
